

Scotch-Brite™

Ref. 8541 Brown pad

For use with Doodlebug pad holder

Technical Data

TD 135 - Date: Feb. 2005

New issue

E.K. Page 1/1

Description :

The product is a thick brown stripping pad, made of high quality synthetic fibre forming an open textured non-woven web, having abrasive particles evenly dispersed throughout and bonded to the web with a durable resin.

Product Advantages :

- Excellent stripping effect
- Consistent performance
- Flexible and able to conform to uneven surface
- Long lasting.
- Easy to rinse/wash after use.
- Suitable for dry or wet stripping operations
- Excellent resistance to stripping solutions and 3M Trouble Shooter

Where and When to Use :

Use the pad attached to a Doodlebug pad holder to remove marks, scuffs and stains from non-fragile floors, corners, baseboards, walls and other surfaces.

Maximum use/washing temperature : 60°C.

Labelling :

Each pad shall be printed (white) with the manufacturer's name. Each carton shall be labelled to identify the content by product name, size and manufacturer.

Packaging :

30 pads per case (6 pads in multilingual printed intermediate, 5 intermediates per case).

Maintenance :

Remove from holder and rinse the pad after each use under tap water. Brush the pad with a nylon brush to remove deep embedded soil if necessary.

Disposal information:

Discard into appropriate container for incineration, if available.

Product Characteristics :

Colour: brown

Marking: White 3M logo on one side

Thickness: 28 mm (*)

Size: 254 mm x 117 mm

Weight: 2300 g/m² (*)

Aggressiveness: 2,4 g removed (*) (Schiefer test on acrylic plate material, after 5000 revolutions with a new sample pad)

Composition: polyester fibre, mineral, polymer resin.

(*)Typical average values)

Origin :

Made in France in ISO 9002 and ISO 14001 certified plant.
